About BASM

The BASM laptop is comprised of two M.2 type storage media in order to facilitate the use of two operating systems. CryptoDATA OS operating system is pre-installed and can be used after the initial configuration and activation of user license. The installation of the second operating system must be done on the free M.2 storage.

Generic OS

Encrypted Disk

Warning

CryptoDATA OS can be used after activation of a user license.

When installing an unsecured operating system user must take caution to use the free M.2 storage. Altering CryptoDATA OS files may mean void of warranty.

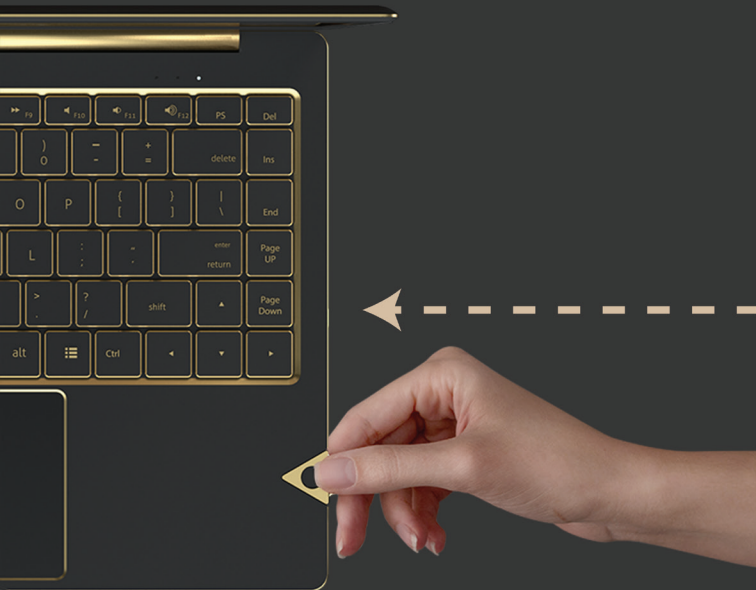

CryptoDATA Tech Co. is not responsible for loss, recovery or compromise of data arising out of installation of unsecured operating systems by the user.

How to Configure

Getting Started

Step 1

Insert Unique
Private KEY

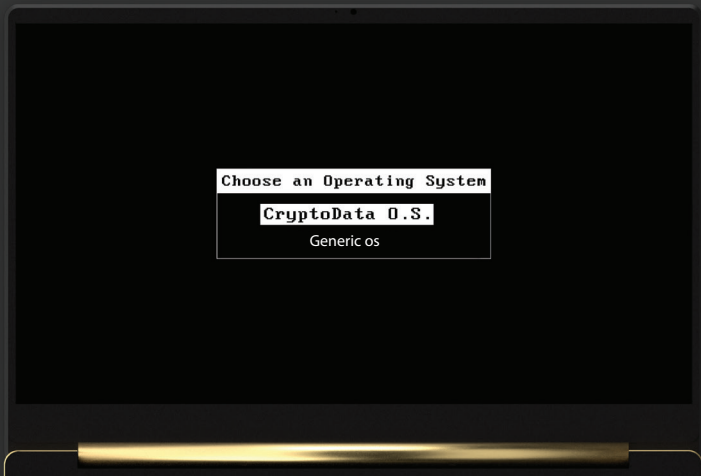

Step 2

Press Power
ON button

Step 3

Select CryptoDATA OS

Step 4

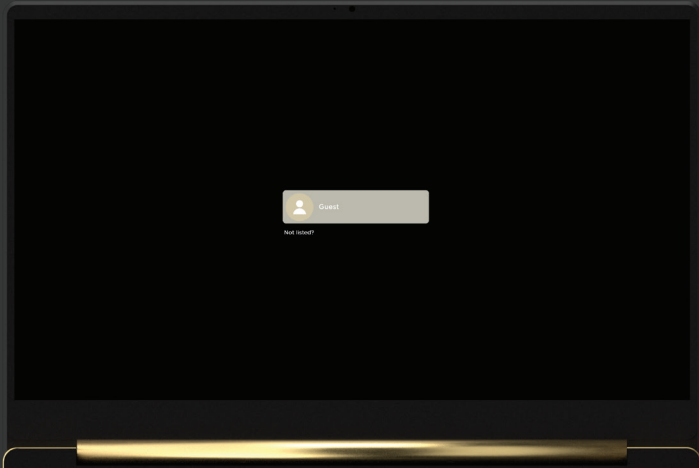

Insert standard Password to decrypt DISK

Password: TempPassword@

Step 5

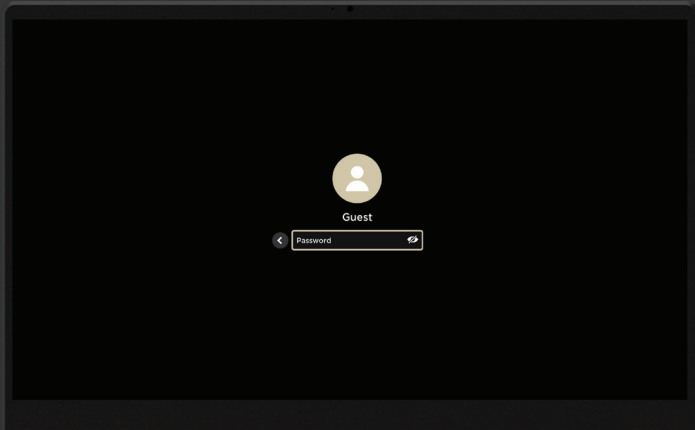

Select Guest Account

Step 6

Insert standard Password for Guest Account

Password: insecure

Step 7

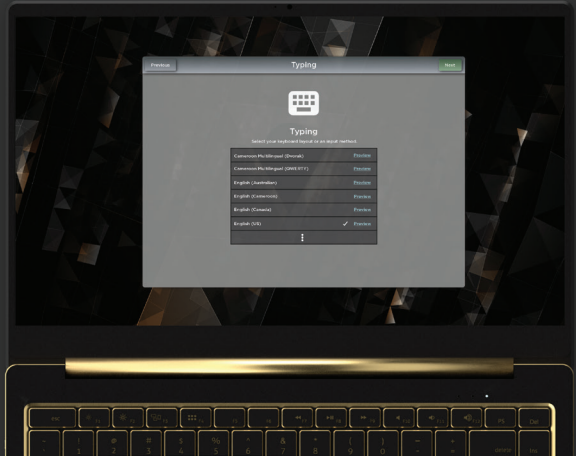

Configure your account Settings

Language

Keyboard Language

Location

Time Zone

Step 8

Set DISK Encryption Password

Warning

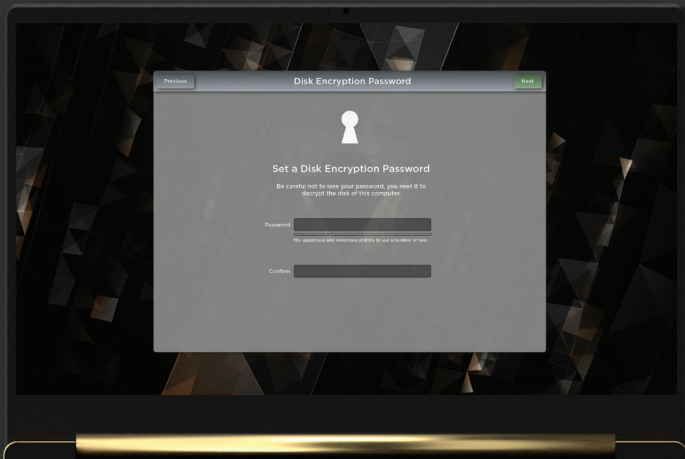

Your password must be kept confidential at all times. Passwords should never be shared or exposed to others. You will not let anyone else access your account, or do anything else that might jeopardize the security of your account.

We strongly recommend storing your password in a secured place.

Disk protocol uses a strong encryption algorithm and therefore the restoration of CryptoDATA OS will not be possible in case of forgetting or losing your password, as CryptoDATA Tech Co. does not collect, use or store user data.

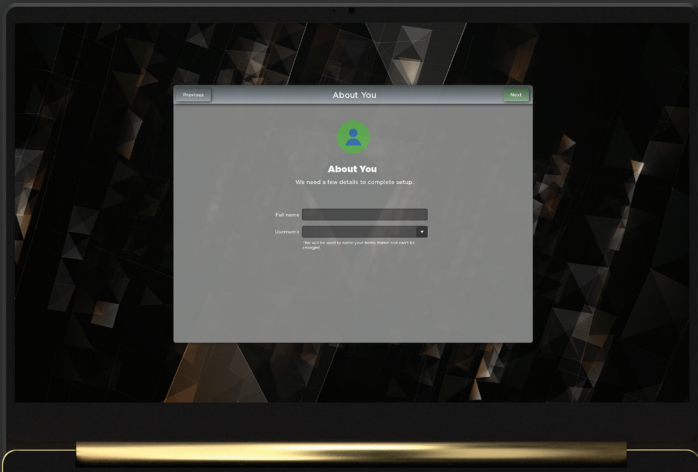

Step 8

Set DISK Encryption Password

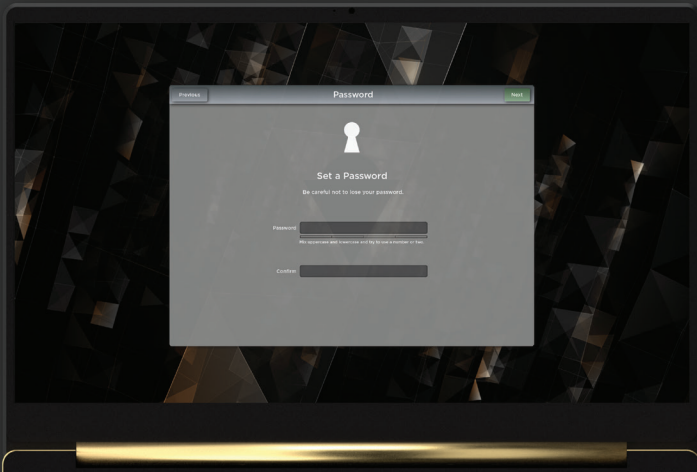

Step 9 Account

Create User Name

Step 9 Account

Create User Password

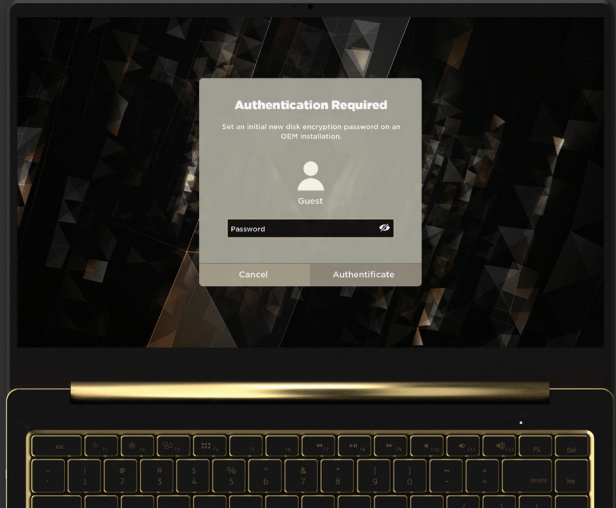

Step 10

Insert Guest
Password : insecure

*to authenticate new disk encryption

Insert again Guest
Password: insecure

*to authenticate new user creation

Final Step

Open CryptoDATA OS

Safety Precautions

The following safety precautions will increase the life of the BASM Laptop. Follow all precautions and instructions. Except as described in this manual, refer all servicing to qualified personnel.

Disconnect the AC power before cleaning. Wipe the Basm Laptop using a clean cellulose sponge or chamois cloth dampened with a solution of nonabrasive detergent and a few drops of warm water and remove any extra moisture with a dry cloth.

DO NOT place on uneven or unstable work surfaces. Seek servicing if the casing has been damaged.

DO NOT expose to dirty or dusty environments. DO NOT operate during a gas leak.

DO NOT press or touch the display panel. Do not place together with small items that may scratch or enter the Basm Laptop.

DO NOT place or drop objects on top and do not shove any foreign objects into the Basm Laptop.

DO NOT expose to strong magnetic or electrical fields.

DO NOT expose to or use near liquids, rain, or moisture. DO NOT use the modem during electrical storms.

DO NOT leave the BASM Laptop on your lap or any part of the body to prevent discomfort or injury from heat exposure.

SAFE TEMP: This Laptop should only be used in environments with ambient temperatures between 5°C (41°F) and 35°C (95°F).

DO NOT carry or cover a Laptop that is powered ON with any materials that will reduce air circulation such as a carrying bag.

Battery safety warning: DO NOT throw BASM in fire. DO NOT short circuit the contacts. DO NOT disassemble the battery.

INPUT RATING: Refer to the rating label on the bottom of the BASM and be sure that your power adapter complies with the rating.

DO NOT use strong solvents such as thinners, benzene, or other chemicals on or near the surface.

DO NOT use damaged power cords, accessories, or other peripherals.

Incorrect installation of battery may cause explosion and damage the BASM Laptop.

DO NOT throw the BASM Laptop in municipal waste. This product has been designed to enable proper reuse of parts and recycling. The symbol of the crossed out wheeled bin indicates that the product (electrical, electronic equipment and mercury-containing button cell battery) should not be placed in municipal waste. Check local regulations for disposal of electronic products.

DO NOT throw the battery in municipal waste. The symbol of the crossed out wheeled bin indicates that the battery should not be placed in municipal waste.

Your purchase is limited to the electronic mobile device presented by this user guide manual, without including additional services. The use of the services and use of the applications provided by CryptoDATA are subject to terms and conditions that are presented to you at their first use or installation and available online on <https://cryptodata.com/user-agreement/>
